

TerraMaps Recommend Loadorder and combo for ETS2 1.45

Thank you for using the TerraMaps loadorder and Combo for ETS2 1.45!
Below you will find all the links and the load order to Setup your Combo!

This Map Combo is made together with EuRoadnet.

We know that there are many more mapcombos out there with more maps.

And we especially want to encourage you to try it out.

However this is the only mapcombo we support at the moment.
